MEDIA RELEASE

City of Pembroke Open Air Recreational Fire Ban Removed

For Immediate Release

August 13, 2018

The City of Pembroke is removing the Ban on Recreational Open Air Burning within the municipality. The fire ban was imposed on July 10 due to the extreme heat and lack of precipitation causing tinder dry conditions and a water shortage.

All residents are reminded that only permit holders can have a recreational open air fire and permits are only issued to properties which are beside a river in the city.

All permit holders have been contacted regarding the removal of the fire ban.
