

News Release

From: Ron Conroy, Manager, Parks & Recreation Department

Date: May 8, 2019

Residents asked to stay off wet sports fields and diamonds

The City of Pembroke is asking residents to stay off all sports fields and ball diamonds at Riverside Park.

With extreme wet conditions and rising floodwaters, the fields are very wet and could be damaged if used in their current condition.

The City will officially open the fields as soon as conditions make it feasible.

The City of Pembroke thanks residents for their help in preserving the quality of our sports fields.
